Kentucky STOCK FARM  
(BLUE GRASS)

## FOR SALE OR LEASE.

I will sell, or lease for a term of years, MELBROCK STOCK FARM, the home of the late W. T. Dudley, situated within one mile of Frankfort, Ky., on the Lexington turnpike, and L. and N. Railroad, containing 265 acres, which may be divided into two tracts, one containing 185 acres, with the residence and improvements, and the other 100 acres with one tenement house.

The soil is rich, producing large yields of tobacco, wheat, corn, etc., and there are five never-failing springs of limestone water on the place.

The residence is of brick, with ten rooms, located on a commanding eminence and surrounded by forest trees. Improvements include two large stables, two large tobacco barns and other farm buildings all in perfect repair, and a fine orchard of best fruits, now in full bearing. An excellent half-mile track may be made on the place.

This farm has all the requisites for a first-class stock farm, offering special advantages for raising and training horses, the greater part of it being now well set in blue grass. It will take \$20,000 for the whole place, one-quarter cash, balance in one, two and three years, with interest, or will lease for five years at \$2,000 per year.

For further particulars address FRANK CHINN, Attorney, Frankfort, Ky.

331m MARY J. DUDLEY, Executrix.

## A Liberal Offer.

## Election in France.

It Passes Off Without Serious Trouble.

## RIOT IN THE CITY OF AVIGNON.

The Boulanger Committee Room Broken Into and the Voting Papers Burned—A Second Ballot Necessary in Many Places to Determine the Result—Other Foreign Dispatches.

PARIS, Sept. 23.—The election passed off tranquilly in Paris, only a few minor disturbances being reported between early morning and night fall. Reports from the provinces also indicate that no serious trouble has occurred in the country districts. There was a riot in the city of Avignon, where a crowd broke into the Boulanger committee rooms, burned the voting papers and set fire to the building. Thence the mob proceeded to the Boulanger club, breaking in the doors, wrecking the furniture and driving out the members of the club.

In the first division of the department of the Seine, Guyot, Republican, has 4,493 votes; Turquet, Boulangist, 3,688; Despatys, Conservative, 2,193; Muzet, Republican, 1,462; Petit, Labor, 286. There will be a re-ballot, none of the candidates having secured a majority of votes.

In Montmartre, Boulanger received 7,816 votes; Joffrin, Labor-Socialist, 5,507; Thibaud, Republican revisionist, 444; Boulanger being elected.

In St. George, Andrieux, Boulangist, 5,508; Berger, Republican, 2,957; Strauss, Republican, 2,861. A re-ballot is necessary.

In the Pantheon district Naquet, Boulangist, has 4,586; Bourneville, Republican, 3,776. No candidate has a majority.

In the Faubourg, St. Honore district, Passy, Republican, has 3,955; Martin, Boulangist, 3,346; Serve, Conservative, 3,511. A re-ballot is necessary.

The foregoing are Parisian districts. Returns from the provinces are coming in slowly. M. Thevenet, minister of justice, is elected in the second division of Lyons. Reballots will be required in the other Lyons divisions, and also at Bordeaux.

In the first division of Havre, Siegfried, Republican, has defeated March— and the Boulangist candidate.

The Boulangist gain two seats by the election of Count Greffulhe, at Melun, and M. Millevoye, at Amiens, the latter defeating Minister Goblet.

M. Rouvie, minister of finance, is elected for the Grasse division of the Alpes Maritimes, and M. Meline for the Remiremont division of the Vosges.

There appears to be no chance that the Conservatives have even a single seat in Paris. There seems to be a good chance for the success of M. Floquet.

M. Ferry has been defeated in the Vosges district by M. Pictet, a Revisionist. M. Leon Say is elected in Pau, and Casimir Perier, Republican, in Bogert Sur Seine. M. Paul Deroulade, Boulangist, is elected in Angoulême. M. Spuller is elected for Beaune. Reballots are necessary for M. Clemenceau and M. Constans.

The latest totals are, Republicans 158, Anti-Republicans 89, Reballots 145. A second ballot is necessary in the Belleville district, where Rockfort had a plurality but not a majority. Flowens is elected in Embrun.

The workmen in the Montmartre district deposited their ballots early and departed immediately without exchanging views with their fellows. The demeanor of the electors throughout the day was quiet, and there was no crowding at the polls. After the closing of the polls there was some excitement in various parts of the city, especially in the Bourse quarters. Here the different parties paraded the streets, the Boulangists singing popular refrains.

## As Telegraphed to London.

LONDON, Sept. 23.—The Paris correspondent of The London Press describes the interest shown in yesterday's election as the most general ever noticed on any occasion of the kind. It seems to be the popular feeling in the French capital that a genuine crisis has been reached. A common remark is that it is the most important for France since the day of Sedan. The anxiety to obtain returns indicating the result throughout the province is very marked and every scrap of news bulletined at the leading newspaper offices is being eagerly scanned by large crowds of people.

The leaders of all factions express great confidence, but the fact is that they are all hopelessly in the dark as to the probable outcome. The election is conspicuously an expression of the popular will; and in this respect it differs from many previous French elections, which were merely the registration by the people of a result already achieved by their leaders.

The Standard's Paris special says the opinion is quite general that the government will be worsted in the reballots. The struggle will be a severe one.

The News' Paris correspondent remarks upon the seriousness displayed in the voting. He thinks there has been a great relative decline in the power of the Boulangist party since January, and predicts that both Boulanger and Naquet will be defeated in the reballots. He thinks the Republicans will win four-fifths of the reballots.

M. Blowitz, the Paris correspondent of The Times, draws the conclusion that the Reactionaries and Boulangists combined will be seen to have far less strength than they expected to develop.

There was a great report at the offices of The Presse, where an announcement of Boulanger's victory in Montmartre was displayed on a transparency. The news was received with mingled cheers and hoots by the rival contingents, and a row seemed imminent the police and mounted guards charged upon and dispersed the crowd. Several persons were arrested.

In the Montmartre district there are 18,743 registered electors. Of these 11,686 voted. Boulanger received 5,880 votes, and there were 2,394 blank voting papers. A reballot is, therefore, necessary. It is admitted that the blanks really represent Boulangist votes. The public consider the tactics adopted unfair.

## Resisting the Tithe Tax.

LONDON, Sept. 23.—The bitter feeling in Wales over the tithe question shows

no sign of abatement. The opposition to the payment of the tithe is deeply rooted, and has its origin in the fact that the benefits for which this tax was an equivalent have long since ceased to be shared by the people. All complaints and efforts to secure a repeal or reduction of the burden have been disregarded by the government. The office of tithe collector just now is by no means an easy one to fill, nor even a safe one. In various places, streets and houses are barricaded, and it is a task of great difficulty for the collectors to reach the persons of whom they are to demand the tithes. They are then likely to find that those of whom they are seeking have fled, as the approach of the official is heralded from afar by means of guns and horns, the inhabitants all working together in their resistance to what they consider oppression.

## More Smokeless Powder.

LONDON, Sept. 23.—The new smokeless powder invented by an Austrian officer, and which has just been successfully tested by the Austro-Hungarian government, is said to exceed in carrying power the similar powder adopted by the German army, but to be slightly less smokeless. In fact, neither powder is entirely without smoke, but the German article is so nearly so as to be practically perfect. The Austrian powder is sufficiently free from smoke to make it nearly as effective as the other, while its greater power in projection may make it, on the whole, equally valuable.

## The Sultan of Morocco in Tangier.

TANGIER, Sept. 23.—The Sultan of Morocco entered the city in state yesterday with 20,000 followers. There was a grand display of fireworks in the evening. The popular demonstration was a great one. The Sultan intends to remain ten days. The Spanish fleet has arrived in the harbor.

## Priests Suspended.

PARIS, Sept. 23.—Ten provincial priests have been suspended for preaching against the government.

## A TRIPLE CRIME.

A Man Shoots His Wife and Mother-in-Law and Attempts Suicide.

BELLEFONTE, Pa., Sept. 23.—Word was sent to District Attorney J. C. Meyer, of this place, that Sunday morning at 10 o'clock, Seely Hopkins, of Philipsburg, shot his wife and mother-in-law, and then tried to kill himself, but was unsuccessful. From facts elicited it appears that the family did not live agreeable and some time ago had parted, but lately have been living together again. Sunday morning Hopkins, when intoxicated, provoked a quarrel with his wife, and becoming violently enraged procured a revolver and shot her dead.

He then went up stairs and shot his wife's mother dead, after which he proceeded to an adjoining livery stable where he shot himself twice in the head, but neither shot will prove even serious. He was placed under arrest immediately, confessed the terrible triple crime. He will be brought to Bellefonte and placed in jail to await trial. A medical examination of the man has been made and he is pronounced entirely sane.

Jealousy and a belief in the faithlessness of his wife are believed to have been the reasons that incited Hopkins to the crime. When arrested a letter was found on his person written evidently with the thought that his attempt at suicide would be successful. In it he charges two citizens of Philipsburg with being criminally intimate with his wife, and says that he had been hounded to get out of town in order not to interfere with his rivals in his wife's affections.

The letter also contains the request that his body be sent to Bert Hopkins, No. 27 Stone street, Rochester, N. Y. Hopkins was arrested Saturday for an assault and battery on his wife committed a week ago, and was committed to jail in default of bail. For some unknown reason the constable failed to take him to jail, but gave him his liberty.

This will be the second murder trial in Bellefonte within a year, the other being a Hungarian, who was acquitted of the murder of Bernard Cassidy.

## Taking Temperance.

NEW YORK, Sept. 23.—Ex-Governor John P. St. John, of Kansas, addressed the American Temperance union at Chickering hall Sunday afternoon. The ex-governor alluded forcibly to the recent convention of liquor dealers held in this state and to the alliances of politics with the rum power. Dr. I. K. Funk and Joseph A. Bogardus also addressed the meeting.

## The Way They Do in Philadelphia.

PHILADELPHIA, Sept. 23.—After yesterday's game Manager Barnie, of the Baltimore, accused the Athletic officials of passing people through a side gate, receiving their money and making no return for it. The Athletic officials admit that \$2 was received in that way, but deny that they had any intention to defraud.

## Tanner's Successor.

It is Not Yet Decided Who It Will Be.

## HOPING WARNER WILL ACCEPT.

In Case That He Does Not, Then the Position May Be Tendered to Gen. W. H. Gibson, of Tiffin, Ohio—Some Hint About Our Navy—Other Washington News.

WASHINGTON, Sept. 23.—The reports which have been put in circulation in the last two days in relation to the president's choice of this or that man for the position of pension commissioner have been based on desire of imagination. Since Maj. Warner, the secretary of the interior and the president's confidant, the matter has been as much undetermined as it was the day that Commissioner Tanner sent in his resignation.

One name which was considered at this conference in a very favorable way was one that has been but very little mentioned in the public discussion of the Tanner succession. It was that of Gen. W. H. Gibson, of Tiffin, O. Gen. Gibson is one of the most popular men in Ohio and his appointment at this time would help the Republican party materially in the coming campaign in that state. But unfortunately Gen. Gibson was auditor of the state of Ohio many years ago at the time that his brother-in-law embezzled some of the funds of the state and he endeavored to shield the criminal.

The people of Ohio of every political faith hold Gen. Gibson in high esteem, and there would be no criticism of his appointment in the state, but there is no doubt that his appointment would arouse a certain amount of criticism in other parts of the country, and so the choice which at one time during the conference, seemed almost certain, was not made. The president still has hopes that Maj. Warner will accept, but his best friends do not think that he will.

## The Old and New Navy.

WASHINGTON, Sept. 23.—The Herald speaking of the vessels of the old and the new navy, says: "A timely and effectively contrast, well illustrating the difference between the old navy and the new, is presented by the fact that while the Baltimore was getting ready for the trial run that developed her maximum of twenty and one-fifth knots, the Iroquois, which has been under repair at Mare Island, also had a trial trip and made an average of seven and one-fifth knots, and a maximum of a little over eight with a favoring tide. This at least, is the report, which is not quite explicable, because accounts had put her former speed several knots higher."

The Iroquois was one of the vessels we were relying on for overhauling the Germans at Apia, and afterward for sending us to Behring sea to help the Russian chase the sealers, even if not to frighten the sixteen-knot armo clad Swiftsure and her companions. If the trial speed of the Iroquois is only what has been reported, it is to be hoped that she will not undertake to go after any of the Dominion sailing craft in anything like a good breeze, as they might run away from her. We can afford to be amused now at the relics of the old fleet, when near the Iroquois at San Francisco is found the Charleston, with her average of eighteen two-fifths and a maximum of eighteen three-fourths knots made on the official trial.

## Wire for Our New Guns.

WASHINGTON, Sept. 23.—The ordnance bureau of the war department has opened bids for supplying 8,000 pounds of twisted steel wire of rectangular or square section and 21,000 pounds of steel wire of square section for wrapping guns. The wire for which the bids were invited is intended for use in making the Woodbridge 10-inch rifled guns. It is said at the department that one of the bids at least, was reasonable enough in price to warrant a purchase of the wire if good quality.

To determine this point the department will immediately test the samples submitted. When the material is procured the ordnance bureau will again advertise for proposals for building the guns, the material and machinery for winding the tube with wire to be supplied by the government. No proposals were received in answer to the first advertisement issued, but it is believed that success will attend a readvertisement. If it should not, however, the ordnance bureau will itself undertake to build the gun, which it is asserted by the inventor, will be fully as efficient and much cheaper of construction than the standard built-up steel gun.

## COLD BLOODED MURDER.

A Strong Poss of Police Prevent a Lynching in Michigan.

IRON MOUNTAIN, Mich., Sept. 23.—Authentic news has arrived here of the cold blooded murder Thursday afternoon of Solomon Felch, a veteran of the civil war and one of the few remaining survivors of Andersonville horrors. On Thursday he went to his home near Armstrong creek, about twenty-five miles from here, and met his farm help, among whom was Charles Steiglitz at Armstrong Creek depot. A dispute occurred, and Steiglitz picked up a rifle and deliberately shot Felch through the head. Death was instantaneous.

The murderer was arrested by three Indians, who saw the deed committed. He made a murderous resistance and fired one shot into them, but was overpowered. The Indian witnesses and the prisoner are now on their way to the Marinette jail.

## OHIO STATE TELEGRAMS

VARIOUS HAPPENINGS IN DIFFERENT PARTS OF THE STATE.

The Dead Body of a Woman Who Starved to Death Found in a Tenement House, and the Corpse Narrowly Escapes Cremation—Other State Items.

COLUMBUS, O., Sept. 23.—Saturday a woman named Mary Humphreys was found dead in bed in the garret of a tenement house on North Third street. Attention had been called through the newspapers to her deplorable condition, but no attention was given the case, and it is probable that the woman died of starvation. After being found the remains were prepared for burial or for some of the medical colleges.

Yesterday when the coroner called to hold a post mortem fire broke out in a room under the one in which the dead woman lay, but the prompt action of the department prevented the corpse from being burned. The remains were then taken to the coroner's office. The building where the woman died was rented by an Italian named Antonio Catalini. The rooms where the fire originated had been vacated but a few hours before the fire. There is much mystery surrounding the case, but it will never be unraveled, as our thousand dollar detectives are too tired to exert themselves very much.

## Old Soldier's Body Found in a Stream.

NORWALK, O., Sept. 23.—Sunday morning the body of a man was found dead in Frink run, a stream emptying into Huron river, one mile south of Monroeville. Papers found on the body, issued from the probate judge's office at Sandusky, indicate his name as John Briody, an inmate of the Sandusky Soldiers' Home. He wore a soldier's home uniform. Briody was seen at Monroeville the day before in company with another soldier. The latter is now missing. Whether drowned or foully dealt with has not yet been ascertained.

## Escaped from an Insane Asylum.

CLEVELAND, O., Sept. 23.—The inmates of the northern Ohio insane asylum eluded the vigilance of their attendants last evening and escaped from the institution. Both are from Warren, O., one being the young wife of Probate Judge Gilbert, and the other Mrs. Mikesel, the wife of a prominent business man. They are friends and escaped together. Mrs. Gilbert is a very attractive woman and highly educated. Escape from the building was made by means of a key made of a comb. It is thought the women are in Canada.

## A Divorced Wife Shoots Herself.

CLEVELAND, O., Sept. 23.—Late Saturday night, Miss Luella G. Beziena, the divorced wife of Henry Kennaman, a member of the Cleveland fire department, probably fatally shot herself. She went to the city hall, where Kennaman is employed and asked for him, but was not permitted to see him. She sat down and drawing a revolver from her clothes, shot herself in the breast. The attending physician says from the nature of the wound that it was probably accidental. It is thought she came with the intention of shooting Kennaman.

## First Annual Reunion 148th Regiment.

MARIETTA, O., Sept. 23.—The reunion of the 148th O. V. I. will be held in this city October 17 and 18, date of district encampment. This call is for the purpose of perfecting an organization of the regiment and for mutual benefit and greeting, after a quarter of a century has passed. A grand, good time is expected.

## Cracksmen at Work.

CINCINNATI, Sept. 23.—Early Sunday morning burglars effected an entrance to Chesapeake and Ohio ticket office at the corner of Fifth and Walnut streets, and secured about \$350 in money and \$300 worth of checks. No clew has been discovered.

## Ended in Murder.

PEORIA, Ill., Sept. 23.—A gang of Lower Peoria hoodlums, who, under the leadership of James Mackey, have for months back been a source of terror, have brought their criminal career to a climax by the murder of an inoffensive old man named Cowan. For refusing to purchase drinks for the gang he was, on last Wednesday, beaten and kicked into a state of insensibility, and yesterday died from the injuries. Three members of the gang—Kerna, Haggerty and Hanlon—are in custody and almost the entire police force are searching the suburbs for the fourth member named Mackey, who is said to have been seen leaving the city about noon. The chances are that he will be captured within a few hours.

## Corner Stone Laid.

WILKESBARRE, Pa., Sept. 23.—Bishop O'Hara, of Scranton, blessed and laid the corner stone of St. John's Catholic church at Pittston Sunday. Special trains were run from Scranton, Plymouth, Carbondale and Wilkesbarre and a large number of people were in attendance.

## End of a Seven Months Strike.

LANCASTER, Pa., Sept. 23.—The long strike at the Columbia Rolling mills was formally declared off at a meeting of the Amalgamated association. The strike has lasted nearly seven months, and most of the strikers' places have been filled with non-union men.

## A Drunken Negro Fight.

HINTON, W. Va., Sept. 23.—Word comes here that a number of negroes near Brainwell, Mercer county, indulged in a drunken fight, in which two of their number were killed and three dangerously wounded. There are no particulars.
